Abstract:
Media information is a means to convey a message or information that we received, both orally and in writing, and various kinds such as newspapers, television, radio and computers.

Internet is one medium of information very quickly. The required information must be information very quickly, accurately, and can be held responsible for authenticity. Ecumenical Fellowship (PO) is one of the central information and aspirations of the student / First Christian STMIK STI & K. Jakarta For the implementation of application software can use Microsoft FrontPage 2003 so that the contents of the site more interesting.

With this website students are expected to PO / I STMIK Jakarta Christian STI & K can obtain information and to channel their aspirations.
